Solutions By Design II, LLC (SBD) is a management consulting and technology services company serving clients domestically and abroad. For over 30 years, we have delivered technically innovative, reliable, and cost-effective solutions, services, and products, on-time and on-budget. We understand the challenges facing government agencies and help them transform to implement faster, more reliable quality systems. With more than 35 Federal contracts, SBD brings a demonstrated history of commitment to our customers.

Business Process Management

Using Agile development methodology, we deliver analysis, design, prototyping and the day-to-day maintenance and enhancement of your business applications, helping reduce costs and ensure faster execution of programs, projects and other initiatives.

Application Engineering & Maintenance

Our subject matter and technology experts, engineers, analysts and other professionals provide mission support to improve efficiency and enable you to achieve your strategic objective.

Infrastructure Management

We provide infrastructure requirements, design, analysis support as well as network planning and metrics that support major system-wide projects including VTC, IPV6, cybersecurity, secure data center operations, network management, security, IV&V and information assurance services.

The Innovation Center

The Innovation Center is a research and development environment aligned with the two leading Cloud Services providers: Microsoft Azure and Amazon Web Services (AWS). SBD ensures easy access to mainstream Operating Systems, Software Development Ecosystems, and Enterprise tools. This allows our client to prototype solutions faster and demo tools without expense.
