

FOR IMMEDIATE RELEASE

SBD Named in 36th annual List of Fastest Growing Private Companies in the US

Solutions By Design II, LLC Ranks No. 1765 on Inc. magazine's annual Inc. 5000 list

VIRGINIA, September 27, 2017 – For the second year in a row, Solutions By Design II, LLC (SBD) has made the Inc. 5000 list, the most prestigious ranking of the nation's fastest-growing private companies.

Started in 1982, this list details the nation's most successful private companies and has become a hallmark of entrepreneurial success. In order to determine which companies are best suited for this list Inc. examines our three-year growth period using 2013 as a base and continues to monitor the growth until the end of 2016. In order for a company to qualify, it must have been founded and begun generating revenue by March 31, 2013. Further qualifications include being U.S based, privately held, for profit, and being independent with no subsidiaries or divisions as of December 31, 2016. The minimum revenue required for the year of 2013 was \$100,000 while the minimum for 2016 is \$2 million.

Cida Goldbach, CEO of SBD2, stated that "At SBD, we strive for delivery excellence, exceeding our client's expectations and enabling government to run more efficiently."

For over 30 years we have been partnering with the federal government, providing technology services and solutions, and fostering innovation. SBD is committed to helping government agencies accomplish their missions. We have partnered with our government clients on a wide range of business and IT initiatives, such as Agile software development and the implementation of DevOps to reduce cost, increase operational efficiencies and enable our clients to make more informed business decisions.

ABOUT SBD:

SBD is a management consulting and technology services company serving clients domestically and abroad. For over 30 years, we have delivered technically innovative, reliable, and cost-effective solutions, services, and products to our federal customers. Using Agile processes and principles, SBD has helped transform government agencies to implement faster, more reliable quality systems and solutions to enable them to deliver their mission more effectively and efficiently.
