

FOR IMMEDIATE RELEASE

SBD Named on 2017 Washington Technology Fast 50

Solutions By Design II, LLC Ranks No. 36 on the 2017 Washington Technology Fast 50 with Five-Year Sales Growth of 57.2%

VIRGINIA, September 27, 2017 – For the the second consecutive year, Solutions By Design II, LLC (SBD) has been ranked among the 50 fastest growing small businesses in the government services market according to Washington Technology.

Washington Technology is considered the foremost authoritative source of intelligence for executives providing contract services to the government market. They rank the [50 fastest growing small business contractors](#) by calculating compound annual growth rates from 2012 through 2016.

This year SBD moved up 6 ranks to place at #36, with an annual growth rate of 57.2%. Cida Goldbach, SBD President & CEO, stated, “It is remarkable, but not surprising, that even though SBD faces strong competition and an uncertain federal budget, our management teams and our staff keep delivering strong results.”

For over 30 years we have been partnering with the federal government, providing technology services and solutions, and fostering innovation. SBD is committed to helping government agencies accomplish their missions. We have partnered with our government clients on a wide range of business and IT initiatives, such as Agile software development and the implementation of DevOps to reduce cost, increase operational efficiencies and enable our clients to make more informed business decisions.

ABOUT SBD:

SBD is a management consulting and technology services company serving clients domestically and abroad. For over 30 years, we have delivered technically innovative, reliable, and cost-effective solutions, services, and products to our federal customers. Using Agile processes and principles, SBD has helped transform government agencies to implement faster, more reliable quality systems and solutions to enable them to deliver their mission more effectively and efficiently.
