

Solutions By Design II, LLC Launches into 20th Year of Successful Growth and Operations

Vienna, Va. – March 30, 2021 – Solutions By Design II, LLC (SBD), an award-winning technology leader driving digital transformation across the Federal government, is launching into our 20th year of successful growth and operations. SBD delivers application development and cyber security solutions that assure uninterrupted mission operations for Federal agencies.

“We’ve built SBD around our principles of integrity and a steadfast commitment of delivering excellence to our customers. We focus on performance, not profits – knowing that if we take care of our customers and our employees, everything else will take care of itself,” Principal, [Cida Goldbach](#) said. “One way that we do this is by cultivating a culture of inclusion that places a premium on the value of diversity.”

“We are so proud of SBD’s accomplishments and growth over the last 20 years, but we are even more excited about what’s ahead,” Principal, [Clyde Goldbach](#) said. “Every day we are focused on creating value by innovating, investing in our people, and investing in our [Solution and Innovation Center](#). Our people are our business, exemplified by the notion that everyone at SBD is a DOER: Deliver, Outperform, be Ethical, and Respectful. Together, we are singularly focused on securing and delivering the Government of Tomorrow, Today.”

To kick off the celebration of the 20th anniversary of the “II” in SBD, we have launched a new [website](#) reflecting our amazingly talented staff and the incredible services they provide to our customers. Check out [our story](#) to learn about the history of the “II” in our name and to see a timeline of key milestones along our 20 year journey.

ABOUT SBD: SBD specializes in IT system modernization and support as an application transformation and agile process leader. We leverage open source technologies and cloud-based solutions to reduce operating costs and advance the value proposition of automated solutions. We also have a robust cybersecurity capability optimizing security operation centers through the use of workflow automation, technical expertise, and the use of leading edge security tools. Bottom line, we deliver technically innovative, reliable, and cost-effective solutions, services, and products to our federal customers.
