

For Immediate Release

SBD is Awarded the Department of Commerce, Bureau of Economic Analysis (BEA) Cloud Architect and Cloud Engineering (CACE) Support Services contract

Vienna, Va. – December 22, 2021 – Solutions By Design II, LLC (SBD), a leader in cybersecurity, management consulting, technology services, and cloud solutions announced that it has been awarded a contract to provide operational Cloud Architect and Cloud Engineering (CACE) support services to assist in the acceleration of the Bureau of Economic Analysis (BEA’s) migration to the cloud. SBD will provide the necessary expertise to assess BEA’s enterprise cloud readiness and to determine applications/workloads for goodness of fit within a Federal Risk and Authorization Management Program (FedRAMP) authorized cloud environment. SBD will ensure BEA’s cloud architecture provides for optimal steady state performance of cloud hosted applications. SBD will also provide infrastructure modernization and project management support to ensure BEA’s successful cloud migration for the following initiatives: Public-facing Web Infrastructure Migration; Research Data Migration; File Servers and OneDrive Planning and Migration; Desktops in the Cloud Migration; and Enterprise Cloud Migration Tasks. “Working with a new agency is always exciting” said Jay Bercher, Program Manager.” This is a great opportunity for SBD as we start this relationship with BEA and leverage our cloud expertise to assist BEA with their mission.”

ABOUT SBD: SBD is an award winning, industry leading technology services company, bringing extensive experience and expertise in Cybersecurity and IT modernization, leveraging cloud-based and open-source technologies to reduce operating costs and increase mission performance. For over 30 years, SBD has delivered technically innovative, reliable, and cost-effective solutions, services, and products, on-time and on-budget. SBD assisted their customers implement faster, more reliable quality systems by delivering technically innovative, reliable, and cost-effective solutions, services, and products to our customers. For instance, in support of the Centers for Medicare and Medicaid Services (CMS) Health Insurance Oversight System (HIOS) effort, SBD migrated the Federally Facilitated Marketplace (FFM) from its current on-premises virtual data center into an AWS cloud environment ahead of schedule. SBD continues to optimize in the cloud to reduce costs, increase monitoring and availability, mature our continuous deliver practice, automate security and implement platform improvements.
